

## FRIENDS OF THE ARTICLE V CONVENTION

*One Friend At A Time . . .*

### Why an Article V Convention?

Why an Article V Convention? Why should it be held? Why should you care about it? An Article V Convention is the only way in the Constitution **the people** can directly change things in this country. **The people** elect the delegates to a convention. It is a Convention of the People.

Many want to subvert **your right to decide how things are going to be in this nation**. It's up to you to decide whether to let them do it. Many talk about a "convention of the states" or a "con con." All these groups want you to **give up your right of decision. If you don't like the way things are in this nation an Article V Convention lets you change that.** Get the facts. Then decide about an Article V Convention. At stake is whether you are going to control events in this nation or be controlled by others. It's that simple.
