

# State Article V Convention Applications By Amendment Subject

## "General" Applications

The following states have submitted "general applications" for a convention call meaning an application submitted by a state for a convention call with no specific amendment subject in the application. Such applications must be added to any list of applications of states for any specific amendment subject as "general" applications are requesting a convention call for **ALL** amendment subjects. The "general" applications have been added to the specific subject list as appropriate meaning the state did not submit a specific subject application on that amendment subject.

**Total Number of Applying States: 31--Convention Call Required. Year Required: 1911**

(Article V mandates a convention call if two thirds of the states in the Union at the time of the triggering application apply. In 1911 there were 46 states in the Union. Two thirds of 46 is 30.666 or 31 states. The fact Congress proposed its own amendment does not relieve Congress of its obligation to call a convention "on the application" of two thirds of the several state legislatures).
